## BRUTAL MURDER BY A HAWAIIAN

HILLO, Nov. 6.—John Parker, a young  
Hawaiian who left Honolulu some time  
ago, was convicted of murder at Van-  
couver, B. C., on October 13. An hour  
before the jury returned its verdict, the  
crowded court witnessed a spectacular  
scene, one that has not been enacted  
in a British Columbia court in a decade,  
and seldom in any court in Canada—a  
judge leaving the bench as a protest  
against a too persistent counsel, J. A.  
Russell, K. C., was the lawyer. The  
murder was one of much ferocity. Par-  
ker, with his brother, entered a small  
Chinese store and purchased some little  
article, then refusing to pay. The Chi-  
nese man, Ong, who was an old man, grappled  
with the man and was literally  
clubbed and kicked to death.

JAPANESE JOYFUL.

The teeming Japanese of the Hilo dis-  
trict plantations kept high holiday on  
Saturday, Sunday and Monday in honor  
of their Emperor's birthday. They  
really started proceedings on Thursday,  
beginning the first draw in the wrest-  
ling matches of which they are so fond.  
The contests were, as usual, conducted  
in the covered arena on the mauka  
side of Front street opposite Moohau  
park.

On Saturday there was a big luau at  
Waiakae. Fencing matches were  
brought off on the sward of the Japa-  
nese temple on Front street Saturday  
afternoon, and the various Japanese ho-  
tels kept practically open house Sat-  
urday night.

Sunday morning there were special  
services in the Buddhist and Shinto  
temples and also in the Japanese Chris-  
tian church. A special message from  
the Emperor to Japanese children was  
read and the veneration with which it  
was received by young and old alike  
was a further testimony to the rever-  
ence with which the ruler is regarded.

During day and night fireworks were  
set off, the day flights of balloons  
which broke out Japanese flags being  
extremely pretty.

The celebration was brought to a  
close Monday night by the finals in the  
athletic contests and a Japanese the-  
atrical performance at their theater. It  
is worthy of most creditable note that  
only one Japanese was arrested during  
the celebration and he had, in his en-  
thusiastic loyalty, indulged in a tea-  
spoonful too much sake.

ITEMS.

At the annual meeting of the Hilo  
Burns Club on Saturday evening, the  
election of officers resulted in the choice  
of the following: President, W. Forbes;  
vice president, R. Forbes; treasurer, F.  
Anderson; secretary, W. Chalmers; ser-  
geant at arms, W. Brien.

An attempt at suicide was made by  
Mrs. Frank Akana of Puno on Sat-  
urday morning. She had not been feeling  
well for some days and her friends had  
noticed that she was acting strangely.  
Matters culminated in her inflicting a  
stab with a pocket knife on herself.  
The wound was not serious.

Word has been received in Hilo of  
the death of Mrs. Milne, mother of Mrs.  
John Tosh, formerly of Hilo. Mrs.  
Milne passed away at the ripe age of  
eighty. Only three months ago Mrs.  
Tosh brought her aged mother to Cali-  
fornia from Scotland. Mrs. Tosh will  
have the sympathy of many Hilo  
friends.

A fire coroner's jury decided that  
Chee Do Chee, a Front street fruit de-  
aler, was a common nuisance. He had  
caused a fire by cooking over a kero-  
sene tin. The fire department janitor  
also came in for blame for being ab-  
sent when the alarm was turned in.

A suggestion has been made that the  
local lodge of Elks should obtain the  
services of the leaders of the company  
that presented "Finnigan the Million-  
aire" for the Honolulu Elks recently.  
The matter is under consideration.

W. T. Balding of Wainaku got a

## Commercial News

By Daniel Logan.

There seems to be perfect confidence felt in Honolulu that the local bankers  
can maintain the equilibrium of general business conditions here while the  
financial inconvenience forced upon the community by mainland financiers  
lasts, which, it is generally hoped, will not be long. Although loans for invest-  
ment, much less speculation, are for the present impossible, or next to it, there  
is no probability that the ordinary channels of trade will be dammed in the  
process of impounding capital against any crisis that may be liable to occur.

Among other elements of relief to the local situation, an important one  
is the permission of the Washington authorities to hold federal revenues col-  
lected here in the stated depository. This great privilege has been facilitated  
by the foresight of Territorial Treasurer Campbell in effecting a sale of the  
entire new issue of bonds for public improvements to the First National Bank  
of Hawaii at Honolulu. As the Territorial bonds are security for federal  
deposits, the advantage of having the issue taken by the local depository is  
apparent. It may not be generally known that the purchaser was sought at  
home by the Treasurer instead of having sought him in the matter. The facts  
are as follows:

The First National Bank had in the U. S. Treasury, as security for the  
deposits of U. S. funds made with it, \$300,000 of 2 per cent U. S. bonds, which  
were quoted just a month ago at 105 and 106. Mr. Campbell went to Presi-  
dent Cecil Brown of the local First National Bank and submitted to him  
the proposition of selling the federal two per cents and buying our three and  
a half per cent Territorial bonds, which he could purchase at a discount in  
fact of anything over 98.125. Mr. Brown saw the point and said he would take  
it up and look into it, which he did with the result of the purchase of the  
issue by his bank.

Our bond issues heretofore have been accepted as security for National  
Bank deposits on a 90-per cent basis whenever additional security was required,  
and also accepted on a 90-per cent basis in exchange for U. S. bonds then in  
the U. S. Treasury—provided the U. S. bonds for which the Hawaiian bonds  
were exchanged were still held in the U. S. Treasury as security for additional  
bank note circulation. If the Secretary of the Treasury was going to adhere  
strictly to his policy the National Bank could not buy our bonds, for the  
department did not want any more bank note circulation, and did not want to  
tie up a lot of money in bonds for nothing. So Mr. Campbell sold the bonds  
to the bank on condition that he got the consent of the Secretary of the  
Treasury to accept them in exchange for the bank's U. S. bonds on a 90-per  
cent basis. As the whole policy of the Treasury Department is to increase the  
circulation, and seldom an opportunity to increase the circulation is not availed  
of, it may easily be judged that conditions did not favor successful results.

James R. Garfield, Secretary of the Interior, in whose department all Ha-  
waiian affairs are handled, agreed with Mr. Campbell that the Territory should  
be able to avail itself of this offer and took the matter up personally with the  
Treasury Department, with the happy results already known. The matter  
of the President's approval was almost one of routine.

### SUGAR AND STOCKS.

The Hawaiian sugar crop for the year 1906-1907 is the largest on record,  
being 440,017 tons as compared with 437,991 tons, the second largest crop, in  
1902-1903. By islands this season's crop is divided as follows: Hawaii, 143,-  
891; Oahu, 119,273; Maui, 104,772; Kauai, 72,081 tons. Since 1897-98, the last  
crop planted before annexation, the sugar yield has nearly doubled, having  
been 229,414 tons in that year. Estimates of the ensuing season are for a larger  
crop than that just completed.

Following are the latest market quotations, bid and asked, for Hawaiian  
securities in San Francisco: H. C. & S. Co., 81 asked; Honokaa, 8% bid; Hut-  
chinson, 14% bid; Kilaua, 3 asked; Makaweli, 29% bid; Onomea, 33 and 34%;  
Paauhau, 14% and 15; Union, 45 asked; H. C. & S. Co. 5's, 96% asked; Hono-  
lulu Rapid Transit 6's, 108 asked.

Next to nothing was doing this week on the Honolulu Stock and Bond  
Exchange. Thursday's list was blank, while three other days had but one  
sale each. Transactions were the following: Olua (\$20), 720 at 33.12%;  
Oahu, (\$20), 10, 15, 82, 100 at 24; H. C. & S. Co. (\$100), 75 at 79.75; O. R. &  
L. 6's, \$1000 at 100.

At New York 96 degree test cen-  
trifugals have remained at \$78, while  
the parity of European beets has ad-  
vanced 20 cents to \$79.20 a ton.

Expert opinion favors a higher range  
of prices for the ensuing year, based  
on the increased consumption and the  
comparatively stationary condition of  
Europe's beet yield.

Dividends have been announced as  
follows: Onomea (San Francisco), 40c  
share; H. C. & S. Co., 65c share; Pe-  
peekeo, 1 per cent; Paauhau, 15c share.

The annual meeting of the Hawaiian  
Sugar Planters' Association will con-  
vene here tomorrow.

John A. Buck, president of Honolulu  
Plantation Co., before leaving for San  
Francisco in the Alameda, expressed  
his complete satisfaction with the qual-  
ity of the refined sugar now manu-  
factured on the plantation of that com-  
pany near Honolulu. It is the first and  
thus far the only Hawaiian plantation  
producing refined sugar on the ground.

SOME PUBLIC MATTERS.

Territorial Auditor Fisher's state-  
ment of the condition of the treasury  
for October shows current receipts of  
\$150,331.11, being \$51,568.72 more than  
for the same month last year. Taxes  
and land revenue account for consid-  
erably more than the excess. Expen-  
ditures on current account were \$219,-  
751.01, being \$25,248.40 more than for  
October 1906. Money paid to the coun-  
ties was \$65,550, or \$8550 more than  
for the same month last year. The  
current cash balance Oct. 31 was \$98,-  
592.23, being \$29,851.14 in excess of  
the balance a year before. By the  
sale of bonds \$288,561 was received  
and the bonded indebtedness was \$4,-  
002,000, or \$182,000 more than on Oc-  
tober 31, 1906.

Foreign imports to Hawaii for the  
first eight months of 1907 amounted to  
\$2,994,744, against \$2,650,894 for the  
corresponding period of 1906. For the  
same comparative periods Hawaii ship-  
ped to foreign countries domestic  
products valued at \$164,918 in 1907  
against a value of \$38,977 in 1906. So  
while the adverse balance of trade to  
Hawaii, including in computation \$4500  
foreign goods shipped hence, is \$2,-  
825,856 for the eight months, the ex-  
ports of domestic products to foreign  
countries have increased 333 per cent,  
while the imports from foreign coun-  
tries to Hawaii have increased but a  
fraction less than thirteen per cent.  
These figures evidence a promising  
condition. While our trade with the main-  
land is yearly increasing, the expan-  
sion of our markets in foreign coun-  
tries implies a double benefit. Hawaii  
finds new customers for herself and at  
the same time obtains additional credit  
at Washington for customs revenue col-  
lected here on foreign goods directly  
imported.

In the platform of the Mohonk  
Conference the only recommendation made  
concerning Hawaii was that Congress  
should give serious attention to legis-  
lation necessary to relieve Hawaii from  
the disadvantages which the Coastwise  
Shipping Act imposes. Abram Lewis  
Jr. delivered an able address at the  
conference on Hawaii's relations to the  
ship subsidy, and Dr. N. B. Emer-  
son a very comprehensive address on  
the race problem in Hawaii. Congress-  
man Lilley of Connecticut gave the  
gathering his impressions of Hawaii  
formed while visiting the islands with a  
favorable for a good yield of the

# BEAUTIFUL SKIN

## Soft White Hands Luxuriant Hair Produced by CUTICURA SOAP.

MILLIONS OF WOMEN USE CUTICURA SOAP exclusively for preserving,  
purifying, and beautifying the skin, for cleansing the scalp of crusts,  
scales, and dandruff, and the stopping of falling hair, for softening,  
whitening, and soothing red, rough, and sore hands, in the form of baths  
for annoying irritations and chafings, or too free or offensive perspiration,  
in the form of washes for ulcerative weaknesses, and for many antiseptic  
purposes which readily suggest themselves to women and especially mothers,  
and for all the purposes of the toilet, bath, and nursery. No amount of per-  
suasion can induce those who have once used it to use any other, especially for  
preserving and purifying the skin, scalp, and hair of infants and children.  
CUTICURA SOAP combines delicate emollient properties derived from CUTI-  
CURA, the great skin cure, with the purest of cleansing ingredients, and the  
most refreshing of flower odors. No other medicated soap ever compounded  
is to be compared with it for preserving, purifying, and beautifying the skin,  
scalp, hair, and hands. No other foreign or domestic toilet soap, however  
expensive, is to be compared with it for all the purposes of the toilet, bath,  
and nursery. Thus it combines, in ONE SOAP at ONE PRICE, the BEST skin  
and complexion soap, the BEST toilet and BEST baby soap in the world.

Complete External and Internal Treatment for Every Humour,  
Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the  
thickened cuticle, CUTICURA Ointment, to instantly allay itching, inflammation, and  
tension, and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood.  
SINGLE SET is often sufficient to cure the severest humours, with loss of hair, when all  
fails. Sold throughout the world. "All about the Skin, Scalp, and Hair," post free, of

## PLANTATION MANAGERS FROM OTHER ISLANDS

The meeting of the Hawaiian Sugar  
Planters' Association is to be held next  
week and the following managers came  
down from Hawaii yesterday to at-  
tend. They will also be present at the  
annual dinner: J. W. Webster, Pe-  
peekeo; John M. Ross, Hakalau; John  
Watt, Olua; C. C. Kennedy, Walakea  
Mill Co.; J. A. Scott, Hilo Sugar Co.;  
C. McLennan, Laupahoehoe Sugar Co.;  
W. G. Walker, Oolaka Sugar Co.; Al-

## BIG RESERVOIR IS BEING BUILT

The building of a reservoir, which  
will hold 300,000 gallons of water at  
Fort Shafter, and the installation of  
a pumping plant has been going on  
rapidly, and were it not for the sink-  
ing of the ship Tillie Starbuck, which  
was bringing a large amount of steel  
for the work, would be far along to-  
wards completion. The work is being  
done by Contractor Fred Harrison,  
of this city, and will afford a full pro-  
tection for the army buildings on the  
Kahauiki reservation.

## IN THE CIRCUIT COURT YESTERDAY

Judge Lindsay yesterday sentenced  
Antonio Rodriguez, Jr., to one year's  
imprisonment on a conviction for steal-  
ing a cow and selling her to the  
slaughterhouse. John Silva, who was  
concerned in the stealing, but who  
pleaded guilty, was given six months'  
imprisonment.

John Marks, indicted for perjury in  
connection with his testimony before  
the grand jury in the William Holt  
matter, and for stealing two cattle  
from the Dowsett Company, was ar-  
raigned before Judge Lindsay and  
pleaded not guilty.

Judge De Bolt yesterday granted the  
following divorces: To Rose L. Lani  
Kilweleo from her husband, on the  
ground of desertion; to Hannah Lloyd  
from Arthur, for non-support, she be-  
ing given the custody of her four  
minor children; to Lum Mun King  
from Chang See on the ground of de-  
sertion.

## REPORT THAT'S WORSE THAN UNAUTHORIZED

The statement in an afternoon paper  
that W. W. Harris is to take the man-  
agement of the Hawaiian Mahogany  
Lumber Co. is without foundation. E.  
H. Cant, who is at the head of the  
company under the title of general  
manager, holds his position under a  
three-year contract and has not been  
informed of any intention on the part  
of the company to make a change.  
The first intimation that anything of  
the kind was contemplated is what  
appeared in the Star. He remarked  
last night that Mr. Harris was also  
surprised at the statement, and he  
understood that he had called at the  
office of the Star and contradicted the  
report.

## IT PROVED UNLIKE HEARST'S BARREL

Lately some unknowns have been in  
the habit of placing empty barrels on  
the Oahu railway track near Pearl  
City in front of the late train from the  
city, for the fun, presumably, of hear-  
ing the noise made when the locomotive  
struck the barrel. But Friday  
night the miscreants placed on the  
track a barrel filled with telephone  
pole insulators, which the Mutual Tel-  
ephone people had left near the line.  
The engineer saw it but thinking it  
was an empty barrel like the previous  
ones he did not stop his train. The  
insulators and barrel were scattered to  
the four winds.
